

Homework -- STAT007 -- Winter quarter 2021

Don't print this file: as the quarter develops the list typically suffers changes to follow the natural rhythms of a quarter (sometimes a class goes faster than planned, sometime slower). Just get used to check the list every Wednesday morning or so when (each week) the week's homework is finalized. We typically need to wait until the end of Tuesday's lecture to see how far we went and then to decide what is fair to ask students to submit on Friday. Makes sense?

Odd numbered problems are practice problems.
